reimagining energy™

Endorsed by:

Official Directory of:

Published by:
Working so that energy may cross the world

- Complete control of whole process in the production and distribution of all types of fittings and piping for the energy production and transmission markets.
- The manufacturing of special products as reducing elbows, tees, barred tees, equal & reducing laterals, extruded header & manifolds, reinforcement saddles, split tees, launching & receiving traps, Y pieces, bends, pipes as per customer drawing.
- 24,000 tons of 50,000 items available for prompt stock over a range of carbon steel, alloy steel, stainless steel and non ferrous alloys including equal and reducing tees, crosses, concentric and eccentric reducers, caps, longitudinally welded CRA, CLAD and lined pipes, 90° and 45° long radius elbows, 180° long radius return bends, 90° short radius elbows, 180° short radius return bends, in all schedules according to ANSI B36.10 and ANSI B36.19 and up to schedule XXS and over; in sizes up to 120” NPS.
- Present capacity of 35,000 yearly tons. 2013-2014 capacity at full run of 65,000 tons.
- The major quality accreditations as ISO, ASME, GOST, TÜV.
- 1,030 projects supplied worldwide since 2000.
- A staff of more than 840 skilled and motivated professionals.
- 16 branches worldwide.

- Total production-sales area of 669,200 sqm worldwide.
- Constant attention to the latest market trends and standard requirements.
- Research and innovation in metallurgical fields.
- Close co-operation with all Clients

are at the basis of the rapid growth and success of ALLIED INTERNATIONAL GROUP all over the world.

One stop solution partner

The results say that the formula is working. We can consider a strategic and expanding sector as energy, with a strong demand of special parts for production and transmission.

We are creating more and more a company with advanced technology, top quality production process, an intelligent administration of motivated and specialized human resources and a best worldwide network.

We found a leader, who adds intuition and flair to more traditional skills. It’s better: two leaders, who can merge maturity and experience with a market global worldview. So the production and commercial units could pass from 1 in Italy in 2000, year of foundation, to 22 in the World in 2012.

We are speaking about ALLIED INTERNATIONAL GROUP, which was founded by Valter Alberici, Italian manager, and Marc Herzstein, American
The only Group

It is the only GROUP that can cover, for every demand, the productive range full of products for these sectors, with a series of quality certifications. It is the only GROUP that has built the whole process from production to delivery of manufactured products. The only GROUP to adopt the concept of internationalization as the founding philosophy of its business mindset. With a positive image and a real trust created on the markets, which have produced the steady growth and the international esteem.

At that point the winning formula would seem complete. But a particular quid is absent, difficult to analyze, easy to perceive. Maybe it’s sufficient saying that, as for every product and project everybody in ALLIED INTERNATIONAL GROUP, with the intelligence and the competence, commits himself completely.

These concrete results make ALLIED INTERNATIONAL GROUP a suitable and reliable business partner.

Allied International Asia Pacific

Its unbeatable strength lies in its synergic union with its Italian manufacturer TECTUBI RACCORDI, longstanding leader in the fittings market and also a member of ALLIED INTERNATIONAL GROUP, which works with OMP-TECTUBI RACCORDI BENDING DIVISION, Italy; with GIEMINOX TECTUBI RACCORDI WELDED PIPES DIVISION, Italy.

This results in one single point of contact supplying not only the goods, but also experience and skill that has been recognised for over forty years at world level, technical support, quality control and service. This in turn speeds up the process, providing concrete, complete and immediate solutions.

ALLIED INTERNATIONAL ASIA PACIFIC’s great energy derives from the young Italian team that guides it with motivation, determination and pride, assisted by colleagues ranging from the latest young arrivals to those with longer service, for an even more direct delivery in-keeping with the local area.

ALLIED INTERNATIONAL ASIA PACIFIC’s wider aim is to guarantee a relationship with the client based on daily dialogue, on listening, on solutions, on loyalty, on consideration, with respect for the founding values that accompany and permeate its professionalism. We are aware that our world will need ever-increasing amounts of values and energy. And so we invite you to walk along this good path with us.

Kenneth Tan, Marketing Director
kenneth@stewartengrg.com

Nature of Business:
Stewart Engrg has been serving customers in the marine and oil & gas industry for the past 40 years. We have our own engineering facility to perform engineering projects such as circulation pump, fire pump, power pack and many diesel engine powered equipment, and overhaul services and component repair services for diesel engines such as Detroit Diesel, Caterpillar, Cummins, Perkins, Hino etc. We can perform repair services on subcomponents such as turbochargers, fuel pumps, injectors, nozzles, blowers, starters, alternators etc.

Product of services:
• Diesel Engines
• Engine Parts
• Design & Built Pump Units
• Power Take Off (PTO)
• Transmission
• Gauges (Temperature and Pressure)
• Air Starters
• Electric Starters
• Repair of Engines & Components such as turbochargers, fuel pumps, injectors, nozzles, blowers, starters, alternators etc.

Our trading division strives to support our customers in their maintenance needs, by supplying the necessary engine parts and accessories such as liners, pistons, main bearings, con-rod bearings, gauges, air starters, electric starters, etc.

In 2012, we have received the following accolades, “Singapore Outstanding Enterprise 2012”, “Circle of Excellence in Offshore & Marine Industry 2012/13”, and “Appreciation Award-36 years of Business Partnership with HDB”. This is a testament to our commitment to our customer and the hard work of all our team members.
